

Interviewer: Hello. I would like to ask you some questions about Intro Week. [P]
[SEP] How difficult or easy was it to start a conversation with students during that Intro week?

Interviewee: No, it was quite easy, I think, because we were just starting and then you can just ask them where they are from. Like it's kind of easy. [P]
[SEP] And we had lots of programs together and we were put in groups, so it was quite easy to start talking to people and meet people.

Interviewer: Did you make any friends during Intro Week and what helped you to maintain the connection with them?

Interviewee: Yes, I have friends from the Intro Week, and it helped that I was living with them and that I was in the same classes with them. [P]
[SEP] So being around each other helped.

Interviewer: Would you feel comfortable using an app to meet people during inter week?

Interviewee: Yes, why not.

Interviewer: Right. How would you feel about sharing your personal information, for example, hobbies, interests, your name in the app??

I don't mind reading. [P]
[SEP] Because, uh they I don't really mind if it's uh easier to connect people than uh Would you like to see other people's interest on the on the app? Yeah, so it helps to connect with people, so it would be nice to see what other people are interested in and if they are interested in the same topics as me, so I don't mind.

Interviewer: How would you feel about sharing your location on the app? [P]
[SEP] Do you think it's safe?

Interviewee: I mean, location. I don't really mind, but I feel like there are some people who could have a problem with it. [P]
[SEP] And is it really needed to have the location because it's Intro Week, we are already in one location, I guess?

Interviewer: Okay, thank you so much. [P]
[SEP] It was a pleasure.
